Message to Unitholders

The first half of 2015 was positive for bond investors as returns outpaced both U.S. and Canadian equities. An environment of declining inflation and modest growth has been an attractive backdrop for fixed income investors as money flowed into investment grade and high yield asset classes. Corporate bonds are performing well in this environment as the additional yield over Government bonds makes them more attractive. Refinancing of existing and maturing debt has been slightly above average which is positive for liquidity. The supply will likely moderate in the second half which will push bond prices higher as demand continues to be robust.

Mid-term corporate bonds performed the best on both a relative and absolute basis. Short term government bonds were one of the worst performers in this period. The yield curve continues to steepen which will eventually push investors further out of the maturity spectrum. This will likely result in mid and long term bonds out performing on a relative basis.

The Bank of Canada has cut rates 25 basis points in the first half of 2015 and they continue to be accommodative. Although the U.S. economy continues to grow steadily, small cracks are appearing globally, not only in Europe but China as well. The Greek situation continues to unfold and we have not seen the final resolution. Central banks globally continue to be on deflation watch for the most part, although the risk of that in North America is quite low.

The global growth backdrop is softening and although the U.S. central bank is expected to hike rates by the end of 2015, all other central banks are either on hold or reducing overnight rates, Canada included. We have extended the term to maturity in our portfolio to take advantage of the attractive yield pickup and demand for long duration assets. Corporate bonds are our preferred asset class within fixed income and we remain comfortable being fully invested at this time.

June 30, 2015

Ridgewood Investment Grade Bond Fund

Interim Financial Report 2015 (Unaudited)

UNAUDITED INTERIM REPORT STATEMENT

The accompanying interim financial statements have not been reviewed by the external auditors of the Fund. The external auditors will be auditing the annual financial statements of the Fund in compliance with International Financial Reporting Standards.

Ridgewood Canadian Investment Grade Bond Fund

Management's Responsibility for Financial Reporting

The interim financial statements have been prepared by management in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments. Management has ensured that the other financial information presented in this interim report is consistent with the financial statements. The significant accounting policies which management believes are appropriate for the Fund are described in Note 4 of the financial statements.

The Manager is also responsible for maintaining a system of internal controls designed to provide reasonable assurance that assets are safeguarded and that accounting systems provide timely, accurate and reliable financial information.

John H. Simpson, CFA
Managing Director
Ridgewood Capital Asset Management Inc.

Paul W. Meyer, CFA

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (*unaudited*)

1. ESTABLISHMENT OF THE FUND

Ridgewood Canadian Investment Grade Bond Fund (the “Fund”) is a closed-end investment fund established under the laws of the Province of Ontario pursuant to the Declaration of Trust and a public offering in a prospectus dated November 27, 2009. Ridgewood Capital Asset Management Inc. (“Ridgewood” or the “Manager”) is the Manager and Trustee of the Fund. The Fund’s principal office is 55 University Avenue, Suite 1020, Toronto, Ontario M5J 2H7. The fiscal year end of the Fund is December 31.

Ridgewood is also the investment manager and distributor of units of the Fund. CIBC Mellon Trust Company is the custodian, transfer agent and registrar of the Fund, and, as such, performs certain valuation and other services for the Fund. The Fund commenced operations on December 18, 2009. The Fund has a fixed termination date of December 31, 2019, recently extended from December 31, 2014. The financial statements are authorized for issuance by Ridgewood Capital Asset Management Inc. on August 21, 2015.

2. INVESTMENT OBJECTIVE OF THE FUND

The investment objective of the Fund is to maximize total returns for unitholders while preserving capital in the long term. The portfolio of securities of the Fund (the “Portfolio”) will be invested primarily in Investment Grade Bonds issued by Canadian issuers available to domiciled investors. Investment Grade Bonds means debt securities and term loans that are generally rated at or above BBB- from S&P, or Baa3 or higher from Moody’s Investor Services Inc., or a similar rating from a qualified rating agency. Currently, the Fund may invest up to 25% of the Portfolio in Investment Grade Bonds issued by non-Canadian issuers. As at June 30 and December 31 of each year (each a “Determination Date”), at least 90% of the Portfolio will be invested in securities denominated in Canadian dollars.

3. BASIS OF PRESENTATION AND ADOPTION OF IFRS

These interim financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) International Accounting Standard (“IAS”) 34, Interim Financial Reporting as published by the International Accounting Standards Board (“IASB”) and as required by Canadian securities legislation and the Canadian Accounting Standards Board.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial instruments

The Fund classifies its investments as financial assets at Fair Value Through Profit or Loss (FVTPL). Financial Assets have two sub-categories: those designated at FVTPL at inception, and financial assets held for trading. Financial assets designated at FVTPL at inception are financial instruments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the Fund’s documented investment strategy. A financial asset is classified as held for trading if it is acquired or incurred principally for the purpose of selling in the near term or if on initial recognition is part of a portfolio of identifiable financial investments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking. Derivatives are also categorized as held for trading. The Fund does not classify any investments as held for trading. All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, on the accrual basis based on the bond coupon rate. The Fund’s accounting policies for measuring the fair value of its investments are identical to those used in measuring its net asset value (NAV) for transactions with unitholders.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. In the normal course of business, the Fund enters into various master netting agreements or similar agreements that do not meet the criteria for offsetting in the Statement of Financial Position but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or termination of the contracts.

Recognition, Initial Measurement and Classification

In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgments about whether or not the business of the Fund is to invest on a total return basis for the purpose of applying the FVTPL designation for financial assets under IAS 39, Financial Instruments – Recognition and Measurement. The most significant judgments made include the determination that certain investments are held-for-trading.

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (unaudited)

Capital Disclosures

The Fund's objectives, policies and processes for managing capital are described in Note 2. Information on the Fund's capital structure is described in Note 5 and Note 8. The fund does not have any externally imposed capital requirements other than disclosed in Note 8.

Valuation of Investments

For financial reporting purposes, investments are valued at their fair value. Investments held that are traded in an active market through recognized public stock exchange, over-the-counter markets, or through recognized investment dealers, are valued at their last traded market price where the last traded market price falls within the day's bid ask spread. In circumstances where the last traded price is not within that day's bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on specific facts and circumstances. Investments held include equities, short-term notes, treasury bills, bonds, asset-backed securities and other debt instruments. The Fund policy is to recognize transfers in and out of the fair value hierarchy levels as at the end of the reporting period for transfers between Levels 1 and 2 and as at the date of the transfer for transfers in and out of Level 3.

Investments are recorded in the financial statements at their fair value which is determined as follows:

Bonds are valued at the mean of bid/ask prices provided by recognized investment dealers. Unlisted convertible debentures are valued at cost, if the underlying security is less than the conversion price; or if the underlying security is greater than the conversion price, at the market value of the underlying security multiplied by the number of shares to be received. Mutual fund units held are priced using the net assets value (NAV) per unit, which is fair value, as of the valuation date for the particular fund for both reporting Net Assets attributable to holders of redeemable units and daily NAV.

Cash is comprised of cash on deposit.

Investment Transactions and Income Recognition

Investment transactions are recorded on trade date. Interest income from investments in bonds and short-term investments are accrued daily. Realized gains and losses from investment transactions are calculated on a weighted average cost basis.

Income Recognition

Interest income for distribution purposes resulting from investments in bonds is recognized on an accrual basis based on the bond coupon rate.

Financial Instruments – Disclosures

The Fund classifies fair value measurements within a hierarchy that prioritize the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are as follows.

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Investment Manager has the ability to access at the measurement date.
- Level 2 Inputs other than quoted prices that is observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3 Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgment or estimation.

All fair value measurements above are recurring. The carrying values of cash, subscriptions receivable, interest receivable, payable for investments purchased, redemptions payable, distributions payable, accrued liabilities and the Fund's obligation for net assets attributable to holders of redeemable units approximates their fair values due to their short-term nature. Fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

a) Bonds and short-term investments

Bonds include primarily government and corporate bonds. Short-term notes and treasury bills are stated at amortized cost plus accrued interest, which approximates fair market value. The inputs that are significant to valuation are generally observable and therefore the Fund's bonds and short-term investments have been classified as Level 2.

Please see Note 12 for these disclosures.

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (unaudited)

Foreign currency

a) Functional and presentation currency

Items included in the interim financial statements of the Fund are measured in the currency of the primary economic environment in which the Fund operates (the “functional currency”). The interim financial statements of the Fund are presented in CAD which is the Fund’s functional currency.

b) Foreign currency translation

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period end exchange rates of monetary items and non-monetary assets and liabilities that are denominated in foreign currencies are recognized in profit or loss in the period in which they arise. Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognized together with other changes in fair value.

Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

a) Fair value measurement of derivatives and securities not quoted in an active market

The Fund holds financial instruments that are not quoted in active markets. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Where no market data is available, the Fund may value positions using its own models, which are usually based on valuation methods and techniques generally recognized as standard within the industry. The models used to determine fair values are validated and periodically reviewed by experienced personnel of the Manager, independent of the party that created them. The models used for private equity securities are based mainly on earnings multiples adjusted for a lack of marketability as appropriate.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values

of financial instruments. The Fund considers observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Refer to Note 4 – Financial Instruments - Disclosure for further information about the fair value measurement of the Fund’s financial instruments.

b) Classification and measurement of investments designated as FVTPL.

In classifying and measuring financial instruments held by the Fund, the Manager is required to make significant judgments about whether or not the business of the Fund is to invest on a total return basis for the purpose of applying the FVTPL designation for the financial assets under IAS39, Financial instruments – Recognition and Measurement (IAS39). The most significant judgment made include the determination that certain investments are held-for-trading.

5. REDEEMABLE UNITS

Each unitholder in the Fund acquires redeemable units, which represent an undivided interest in the net assets of the Fund. All units are of the same class with equal rights and privileges. Each unit is entitled to one vote at any meeting of unitholders and to equal participation in any distributions made by the Fund. Fractional units are not entitled to voting privileges. Each unit is redeemable at the option of the unitholder in accordance with the Trust Agreement and the number of units which may be issued is unlimited. The units of the Fund are fully paid when issued and are generally not transferable.

Following are the redeemable unit transactions during the period:

June 30, 2015

	2015
Units outstanding,	
Beginning of period	7,872,822
Redeemable units issued for cash	1,028,700
Redeemable units redeemed	-
Units issued on	
reinvestment of distributions	-
Units outstanding, end of period	8,901,522

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (*unaudited*)

December 31, 2014

	2014
Units outstanding,	
Beginning of year	7,126,722
Redeemable units issued for cash	746,100
Redeemable units redeemed	-
Units issued on	
reinvestment of distributions	-
Units outstanding, end of year	7,872,822

6. RELATED PARTY TRANSACTIONS

The Fund's investment activities are managed by Ridgewood Capital Asset Management Inc. (the "Manager").

Management fees

Under the terms of the management agreement dated November 27, 2009 as amended and restated on December 17, 2009, the Fund appointed the Manager to provide management services. The Manager receives a fee based on the NAV of the Fund's units, accrued daily and payable monthly out of the assets of the Fund. The maximum management fee is equal to 0.50% (excluding HST) of the net asset value of the Fund. Services received under the Declaration of Trust include managing or arranging for the management of the Fund's investment portfolio and providing or arranging for all required administrative services to the Fund. Total Management fees for the period ended June 30, 2015 amounted to \$322,149 (June 30, 2014 - \$251,890).

Independent Review Committee fees

The total remuneration paid to members of the Independent Review Committee during the period ended June 30, 2015 was \$4,467 (June 30, 2014 - \$4,467).

7. MANAGEMENT FEES AND EXPENSES

Ridgewood is entitled to an annual management fee payable out of the assets of the Fund. The management fee is equal to 0.50% (excluding HST) of the net asset value of the Fund.

Ongoing expenses are paid out of the assets of the Fund and include all normal day-to-day operating expenses of the Fund, including without limitation, mailing and printing expenses for periodic reports to unitholders and other unitholder communications including marketing and advertising expenses. Fees payable to the Custodian, the registrar and transfer agent, the Valuation Agent and/or other parties engaged by the Fund for performing certain financial, record keeping, reporting and general administrative services are

charged to the Fund. Any reasonable out-of-pocket expenses incurred by the Manager or its agents in connection with their ongoing obligations to the Fund, fees are payable to the Manager for performance of extraordinary services on behalf of the Fund, auditors and legal advisors; regulatory filing, stock exchange and licensing fees; any expenditures incurred upon the termination of the Fund; and fees payable to the members of the independent review committee of the Fund. Such expenses will also include expenses of any action, suit or other proceedings in which or in relation to which the Manager or any other party is entitled to indemnity by the Fund. The Fund will be responsible for its costs of portfolio transactions and any extraordinary expenses which it may incur from time to time.

8. DISTRIBUTIONS

Net income and net realized capital gains of the Fund may be declared payable to unitholders of the Fund from time to time at the discretion of Ridgewood, provided that in each year sufficient net income and net realized capital gains will be made payable to unitholders so that the Fund will not be liable for income tax thereon, except to the extent that any tax payable on net realized capital gains retained by the Fund would be immediately refundable to it.

Net income and net realized capital gains payable to unitholders of the Fund will be automatically reinvested in additional units of the Fund as of the valuation date of payment unless the unitholder otherwise requests in writing.

9. LOAN PAYABLE AND INTEREST AND BANK FEES

The Fund has a margin account held at Scotiabank which requires collateral against loans (see Schedule of Investments). The Fund can borrow an amount up to 35% of the total assets of the Fund.

Loan Payable

As at June 30, 2015 the balance of the account was \$66,223,868 (December 31, 2014 - \$58,208,773). During the period the maximum amount borrowed was \$74,559,009 (December 31, 2014 - \$59,799,449) and the minimum amount borrowed was \$50,530,021 (December 31, 2014 - \$34,217,610).

Interest and Bank Fees

Total interest and bank fees on the account were \$483,299 for the period (2014 - \$401,965). The account is charged interest based on Bloomberg Ticker Reference plus 70bps on debit spread or minus 25 bps on credit spread. If interest rates had increased/decreased by 100 basis points interest expense would have changed by approximately \$318,202 (2014 - \$236,451).

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (unaudited)

10. INCOME TAXES

The Fund qualifies as a "mutual fund trust" under the Income Tax Act (Canada). The Fund uses the "capital gains refund mechanism" which allows a mutual fund trust to retain some capital gains without paying any tax thereon. As a result, the Fund may not distribute all of its net capital gains. The net income and net capital gains of the Fund that would otherwise be taxable in the Fund are either paid or payable to unitholders in each calendar year. Accordingly, no income tax is paid or payable by the Fund. Such income is taxable in the hands of the unitholders.

As at December 31, 2014 taxation year-end, the Fund had no (2013 - Nil) capital losses and non-capital losses available for carryforward.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Fund's financial instruments consist of bonds, asset-backed securities, liabilities for securities redeemed, cash and loan payable. As a result, the Fund is primarily exposed to interest rate risk and credit risk.

These risks and related risk management practices employed by the Fund are discussed below:

Interest Rate Risk

The Fund's interest-bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Since the loan payable is a short-term obligation the interest rate sensitivity is minimal.

The table summarizes the Fund's exposure to interest rate risks, categorized by the earlier of contractual repricing or maturity dates.

As at June 30, 2015:

	Less than 1 month	1-3 months	3 months -1 year
Loan payable	\$	\$	\$
Interest Rate Exposure	66,223,868	-	-

	1-3 years	3-5 years	More than 5 years
Investments	\$	\$	\$
Interest Rate Exposure	11,291,324	3,035,502	174,245,793

	Non Interest bearing	Total
	\$	\$
Interest Rate Exposure	-	188,572,619

As at December 31, 2014:

	Less than 1 month	1-3 months	3 months -1 year
Loan payable	\$	\$	\$
Interest Rate Exposure	58,208,773	-	-

	1-3 years	3-5 years	More than 5 years
Investments	\$	\$	\$
Interest Rate Exposure	16,529,487	6,213,884	142,741,548

	Non Interest bearing	Total
	\$	\$
Interest Rate Exposure	-	165,484,919

At June 30, 2015, should interest rates have decreased by 100 basis points with all other variables remaining constant, the increase in net assets for the period would amount to approximately \$14.2 million (December 31, 2014 - \$11.1 million), arising substantially from the increase in market values of debt securities, with a small portion affecting interest rate futures. Conversely, if interest rates had risen by 100 basis points, the decrease in net assets would amount to approximately \$14.2 million (December 31, 2014 - \$11.1 million).

Credit Risk

Financial instruments that potentially subject the Fund to a concentration of a credit risk consist primarily of cash and investments. The Fund limits its exposure to credit loss by placing its cash with high quality government and financial institutions. To maximize the credit quality of its investments, the Fund's managers perform ongoing credit evaluations based upon factors surrounding the credit risk of customers, historical trends and other information.

The Fund's main credit risk concentration is spread between A/A and BBB/Baa rated securities.

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (*unaudited*)

The Fund invests in financial assets, which have an investment grade as rated by well-known rating agencies Dominion Bond Rating Service Limited and Canadian Bond Rating Service Limited.

Portfolio by rating category June 30, 2015	
Rating	As a % of Net Assets
AAA/Aaa	-
AA/Aa	-
A/A	7.03%
BBB/Baa	135.35%
Unrated	10.39%
Total	152.77%
Portfolio by rating category December 31, 2014	
Rating	As a % of Net Assets
AAA/Aaa	-
AA/Aa	-
A/A	12.74%
BBB/Baa	134.02%
Unrated	6.48%
Total	153.24%

All transactions in listed securities are settled for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligations.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund holds securities that are denominated in currencies other than the Canadian dollar. It is therefore exposed to currency risk.

As at June 30, 2015, the Fund held \$12,505,989 (December 31, 2014: Nil) of its assets in foreign securities. As at June 30, 2015, if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies represented in the portfolio, with all other variables remaining constant, net assets would have increased or decreased by approximately \$625,299 (December 31, 2014: Nil). In practice, actual results may differ from this sensitivity analysis and the difference may be material.

Liquidity Risk

Liquidity risk is the risk that a Fund will encounter difficulty in meeting obligations associated with its daily cash redemption of units. Liquidity risk is managed by investing the majority of the Fund's assets in investments that are traded in an active market and which can be readily disposed of. The tables below analyze the Fund's financial liabilities as at June 30, 2015 and December 31, 2014.

As at June 30, 2015:

	1-3 months	> 3 months	Total
	\$	\$	\$
Accrued expenses	209,857	-	209,857
Distribution payable	471,781	-	471,781
Loan payable	-	66,223,868	66,223,868
Liabilities for securities redeemed	-	-	-
Total liabilities	681,638	66,223,868	66,905,506

As at December 31, 2014:

	1-3 months	> 3 months	Total
	\$	\$	\$
Accrued expenses	182,928	-	182,928
Distribution payable	492,697	-	492,697
Loan payable	-	58,208,773	58,208,773
Liabilities for securities redeemed	2,395,823	-	2,395,823
Total liabilities	3,071,448	58,208,773	61,280,221

Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is geographical location, product type, industry sector or counterparty type. The following is a summary of the Fund's concentration risk as a percentage of net assets attributable to holders of redeemable units.

Market segments	June 30, 2015
Canadian Corporate Bonds	93.94%
U.S. Corporate Bonds	17.17%
Global Bonds	10.12%
Asset-Backed Securities	31.54%
Total	152.77%

Ridgewood Canadian Investment Grade Bond Fund

Notes to the Financial Statements

June 30, 2015 (*unaudited*)

Market segments	December 31, 2014
Canadian Corporate Bonds	98.93%
U.S. Corporate Bonds	14.16%
Asset-Backed Securities	40.15%
Total	153.24%

12. Financial Instruments – Disclosures

Fair Value Disclosure

The Fund's financial assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy described in Note 4. The following fair value hierarchy table presents information about the Fund's assets measured at fair value on a recurring basis as of June 30, 2015 and December 31, 2014.

Financial Assets at fair value as of June 30, 2015				
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Bonds	-	149,646,388	-	149,646,388
Asset-backed securities	-	38,926,231	-	38,926,231
Cash	198,464	-	-	198,464
Loan payable	-	(66,223,868)	-	(66,223,868)
Total	198,464	122,348,751	-	122,547,215

Financial Assets at fair value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Bonds	-	122,126,597	-	122,126,597
Asset-backed securities	-	43,358,322	-	43,358,322
Cash	170,206	-	-	170,206
Loan payable	-	(58,208,773)	-	(58,208,773)
Total	170,206	107,276,146	-	107,446,352

There were no significant transfers made between Levels 1 and 2 as a result of changes in the availability of quoted market prices or observable market inputs during the period ended June 30, 2015 and year ended December 31, 2014.

In addition, there were no investments or transactions classified in Level 3 for the period ended June 30, 2015 and year ended December 31, 2014.

13. Financial instruments by category

The following tables present the carrying amounts of the Fund's financial instruments by category as at June 30, 2015:

Financial Instruments by category as of June 30, 2015			
	Financial assets at FVTPL		Total
Assets	HFT	Designated at inception	\$
Non-derivative financial assets	-	188,572,619	188,572,619
Total	-	188,572,619	188,572,619

The following tables present the carrying amounts of the Fund's financial instruments by category as at December 31, 2014:

Financial Instruments by category as of December 31, 2014			
	Financial assets at FVTPL		Total
Assets	HFT	Designated at inception	\$
Non-derivative financial assets	-	165,484,919	165,484,919
Total	-	165,484,919	165,484,919

The Fund's financial instruments as at June 30, 2015 and December 31, 2014 are designated as FVTPL.

The Fund's net gains (losses) on financial instruments for the periods ended June 30, 2015 and 2014 were all from financial instruments designated as FVTPL.

14. Future accounting policies

Accounting standards issued but not yet adopted

Below are accounting standards issued or amended but not yet effective and not yet adopted. The Manager does not expect the adoption of these standards or amendments to have significant impact to the Fund's financial statements.

The final version of IFRS 9 Financial Instruments ("IFRS 9") was issued by the IASB on July 24, 2014 and will replace IAS 39. IFRS 9 introduces a model for classification and measurement of financial assets and liabilities. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. Ridgewood Capital Group of Funds is in the process of assessing the impact of IFRS 9 and has not yet determined when it will adopt the new standard.
